However, in the department of Bio-chemistry, non-medical teachers may be appointed to the extent of 50% of the total number of posts in the department. In view of the paucity of teachers in non-clinical departments relaxation upto the Head of the department may be given to non-medical persons in case a suitable medical teacher in the particular non-clinical speciality is not available for the said appointment in said department. However, all such appointments will be made only with the prior approval of the Medical Council of India. Justifications

- a) Needs may vary from hospital to hospital depending on the size of hospital and service rendered more staff than anticipated will be required.
- b) Special attention is needed for supervision of patient care on the evening & night shift.
- c) 30% leave reserve is suggested because nurses get 2 off, 30 Earned Leave and 12 Casual Leave/24 days off in a year. Also it has been observed that on any working day 25% of the staff is off duty, on casual leave.

A nurse works for 240 days in a year whereas hospital require nursing services for 365 days, for 24 hours, which means to depth work for 1 1/3 nurse is required that is why 30% leave.

2. Dieticians : In order to prescribe diet on the scientific lines for different types of patients the services of qualified dietician are essential in all the teaching hospitals

3. Pharmacists : As required for hospitals.

4. Class III and IV Personnel : As required for hospitals.
