#### **Preface**

The new Graduate Medical Education Regulations attempts to stand on the shoulder of the contributions and the efforts of resource persons, teachers and students (past and present). It intends to carry forward the process of learning to enable the Indian Medical Graduate, a consummate provider of healthcare aligned to the evolving needs of the patients in every socio-economic setting. The thrust in the new regulations is the continuation and evolution of thought in medical education making it more learner-centric, patient-centric, gender sensitive, outcome-oriented and environment appropriate. The result is an outcome driven curriculum which conforms to global trends. Emphasis is made on alignment and integration of subjects both horizontally and vertically while respecting the strengths and necessity of subject-based instruction and assessment.

The importance of ethical values, responsiveness to the needs of the patient and acquisition of communication skills is underscored by providing dedicated curriculum time in the form of a longitudinal program based on Attitude, Ethics and Communication (AETCOM) competencies. Great emphasis has been placed on collaborative and inter-disciplinary teamwork, professionalism, altruism and respect in professional relationships with due sensitivity to differences in thought, social and economic position and gender.

In addition to the above, an attempt has been made to allow students from diverse educational streams and backgrounds to transition appropriately through a Foundation Course. Dedicated time has been allotted for self-directed learning and co- curricular activities. With this view in mind the logbook has been designed as per the guidelines of competency based curriculum.

This Academic Record/log book for Undergraduate Medical Students is to be maintained by the student and is part of the learner's personal progress assessment tool kit. The learner shall present the Academic Record to the staff facilitator/ mentor at the end of all classroom learning/ practical sessions/integrated learning sessions /SDL/ AETCOM sessions and feedback sessions as called for by the faculty facilitators/mentors. The progress shall be recorded in the various segments of the record and signed by the facilitator/mentor.

#### 2. Clinical Training/ Learner doctor method

Goal: To provide learners with experience in:

- (a) Longitudinal patient care,
- (b) Being part of the health care team,
- (c) Hands-on care of patients in outpatient and inpatient setting.
- > Be assigned patients admitted during each admission day for whom he/she will undertake responsibility, under the supervision of a senior resident or faculty member.
- Participate in the unit rounds on its admission day and will present the assigned patients to the supervising physician.
- Follow the patient's progress throughout the hospital stay until discharge.
- > Discuss ethical and other humanitarian issues during unit rounds.
- Focus on History taking, physical examination, assessment of change in clinical status, communication, patient education, choice of investigations, basic procedures, continuity of care, decision making, management and outcomes.

### 5.Self-DirectedLearning

SDL helps in empowering the student to perform an objective self-assessment of knowledge and skills, continue learning, refine existing skills and acquire new skills, to apply newly gained knowledge or skills to the care of the patient, to introspect and utilize experiences, to enhance personal and professional growth and learning, to search (including through electronic means), and critically evaluate the medical literature and apply the information in the care of the patient and to identify and select an appropriate career pathway that is professionally rewarding and personally fulfilling.

#### Note:

- 1. This section includes academic milestones attained through self-directed learning. The learner shall be assigned a specific learning objective for each session.
- 2. The learner shall be given an assignment based on the "Desirable to know" are as of the curriculum and any other such topics as deemed necessary.
- 3. They shall record a detailed synopsis of the learning in this section. The student shall also record a list of the books/ journals referred in Vancouver format.

The completion of such activity shall be recorded in this section by the learner and signed by the facilitator.

### 6. Attitudes, Ethics & Communications

The "Indian Medical Graduate" (IMG) shall possess requisite knowledge, skills, attitudes, values and responsiveness, sothat he or she may function appropriately and effectively as a Physician of first contact of the community while being globally relevant. In order to fulfill this goal, the IMG must be able to function in the following ROLES appropriately and effectively:

- 6. Clinician who understands and provides preventive, promotive, curative, palliative and holistic care with compassion.
- 7. Leader and member of the healthcare team and system with capabilities to collect, analyse, synthesize and communicate health data appropriately.
- 8. Communicator with patients, families, colleagues and community.
- 9. Lifelong learner committed to continuous improvement of skills and knowledge.
- 10. Professional, who is committed to excellence, is ethical, responsive and accountable to patients, community and profession.

- 5. This section includes academic mile stones attained through AETCOM learning. The learner shall be assigned a specific learning objective for each session.
- 6. The learner shall be given an assignment based on the AETCOM topics of the curriculum.
- 7. They shall record a detailed synopsis of the skill learnt in this section. The student shall also record a reflection of the learning and learning process.
- 8. The completion of such activity shall be recorded in this section by the learner and signed by the facilitator.
