

Department of Experimental Medicine
The Tamil Nadu Dr MGR Medical University, Chennai-32

Advances in HIV/AIDS management have improved over the years. Antiretroviral Therapy (ART) has been implemented as national program since 2004 in India.

The main aim of this program is to help the medical community to update their knowledge on the issues of HIV/AIDS management. This program will provide insights into the recent advances in HIV diagnosis, treatment of opportunistic infections, antiretroviral drugs and update on the Post Exposure Prophylaxis.
