

National Hub for Healthcare Instrumentation and Development (NHHID) Centre, Anna University, Chennai will be conducting the Symposium series titled "**PRESENT AND FUTURE OF HEALTHCARE INSTRUMENTATION: CLINICAL & TECHNOLOGY PERSPECTIV E**" conducted every three months. Where a doctor of repute and an engineer with a rich experience in medical instrumentation would come together to discuss the future directions of the Medicine- Engineering Continuum. So far two symposia have been successfully conducted by NHHID and the third in the Series is scheduled on **26th September 2015.**

The nominations are invited from Doctors and Medical Students interested in the above said topics. Applicants are requested to fill the registration form available in the brochure & on NHHID website ( [www.nhhid.org/symposium.php](http://www.nhhid.org/symposium.php)).
