 - (a) Parenteral nutrition in pregnancy
 - (b) Pre-implantation diagnosis of genetic di
 - (c) Amniocentesis
 - (d) Precipitate labour
 - (e) Foetal birth injuries.

(5x10=50)

october-1997

[MS 110]

M.D. DEGREE EXAMINATION.

Branch II — Obstetrics and Gynaecology

(Revised Regulations)

Part II

Paper I — OBSTETRICS INCLUDING NEONATOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the physiology of blood coagulation. Discuss the management of coagulation failure in Obstetrics. (25)
 2. Critically evaluate the tests for Antepartum foetal well-being. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Perinatal outcome in breech delivery.
 - (b) Meconium aspiration syndrome.
 - (c) Unruptured tubal pregnancy.
 - (d) Partogram.
 - (e) Diuretics in pregnancy.
-

October-1998

[SM 110]

M.D. DEGREE EXAMINATION.

Branch II — *Obstetrics and Gynaecology*

(Revised Regulations)

Part II

Paper I — **OBSTETRICS INCLUDING NEONATOLOGY**

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Diagrammatically explain the anatomy of internal iliac artery. Describe the technique of Internal Iliac Artery Ligation. (25)
 2. What is the etiology of Pre-Term Labor? How will you manage such a case? (20)
 3. Write briefly on :
 - (a) Non Immune Hydrops Fetalis
 - (b) High Risk Score
 - (c) Discordant Twin
 - (d) Risk factors requiring diabetic screening
 - (e) Management of Eclampsia.
-

April-1999

[SG 110]

Sub. Code : 2009

M.D. DEGREE EXAMINATION

Branch II — Obstetrics and Gynaecology

(Revised Regulations)

Part II

Paper I — OBSTETRICS INCLUDING
NEONATOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the pathophysiology of disseminated intra vascular coagulation in abruptio placentae. List the diagnostic techniques and principles of management. (25)
 2. Discuss the causes, diagnosis and management of Rupture uterus in a second gravida with one living child. (25)
 3. Write short notes on : (6 × 10 = 60)
 - (a) Hydrops foetalis
 - (b) Management of a neonate born to a mother with active hepatitis B infection
 - (c) Indications for hormone replacement therapy
 - (d) Placenta accreta
 - (e) ABO incompatibility.
-

October-1999

[KA 110]

Sub. Code : 2009

M.D. DEGREE EXAMINATION

(Revised Regulations)

Branch II — Obstetrics and Gynaecology

Part II

Paper I — OBSTETRICS INCLUDING
NEONATOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the diagnosis and management of Heart disease in labour and pregnancy. (25)
 2. Discuss in detail diagnosis and management of Ante-partum haemorrhage (APH) at 34 weeks of pregnancy. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Meconium Aspiration syndrome
 - (b) Cardioceutesis
 - (c) Birth Injuries
 - (d) Ovarian apt complicating pregnancy
 - (e) Proteinuria in pregnancy.
-

April-2000

[KB 110]

Sub. Code : 2007

M.D. DEGREE EXAMINATION

(Revised Regulations)

Branch II — Obstetrics and Gynaecology

Part II

Paper I — OBSTETRICS INCLUDING
NEONATOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. 'Diabetes in Pregnancy' current concepts. (25)
 2. 28 year old G₂ P₁ L₁ with history of previous preterm delivery comes with pain in the abdomen at 30 weeks of pregnancy. Discuss the management. (25)
