

[AK 230]

APRIL 1996

M.S. DEGREE EXAMINATION.

Branch VI — Oto-Rhino-Laryngology

(Revised Regulations)

Part II

Paper I — ENT INCLUDING AUDIOLOGY AND NEUROLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Enumerate the causes of vertigo. Discuss in detail the management of vertigo. (25)
 2. Write in detail the symptoms, signs, pathology, investigations and treatment of acoustic neuroma. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Chemotherapy used in E.N.T. malignancies.
 - (b) Serological tests for syphilis.
 - (c) Membranous lesions in oral cavity and oropharynx.
 - (d) Pneumatisation of temporal bone.
 - (e) Tracheoplasty for subglottic stenosis.
-

APRIL 1997

MP 206

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper I - E.N.T. INCLUDING AUDIOLOGY
AND NEUROLOGY

Time: Three hours

Max.marks:100

Answer All Questions

1. How would you investigate and manage a case of facial nerve paralysis? (25)
2. What are the indications for trans-sphenoidal hypophysectomy? Describe the surgical approaches (25)
3. Write briefly on:

Tympanometry

Electro Cochleography

Fourier analysis

Pierre-Robin syndrome

Immunoglobulins in allergy.

(5x10=50)

MS 204 OCTOBER 1997

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper I - E.N.T. INCLUDING AUDIOLOGY
NEUROLOGY

Time: Three hours

Max.marks:100

Answer All Questions

1. Discuss in detail the indications and present status of different types of cochlear implants.
2. Discuss the differential diagnosis and describe the surgical procedures for neoplasms of the posterior cranial fossa.
(25)
3. Write briefly on:
 - (a) Oto-Acoustic Emissions
 - (b) Histiocytosis X
 - (c) Tympanic Neurectomy
 - (d) Noise pollution
 - (e) Otoimmunology.

5x10=50)

SV 219

APRIL 1998

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper I - E.N.T. INCLUDING AUDIOLOGY AND
NEUROLOGY

Time: Three hours

Max.marks:100

Answer All Questions

1. Discuss Tinnitus and its management. (25)
2. Discuss facial nerve paralysis and its management. (25)
3. Write briefly on:
 - (a) Cleft palate
 - (b) Augmentation rhinoplasty

Hearing aids

Lateralisation for bilateral abductor palsy

Olfactory pathway. (5x10=50)

[SG 219] APRIL 1999 Sub. Code : 2076

M.S. DEGREE EXAMINATION

Branch IV – E.N.T.

(Revised Regulations)

Part II

**Paper I — E.N.T. INCLUDING AUDIOLOGY AND
NEUROLOGY**

Time : Three hours

Maximum : 100 marks

1. Discuss the various graft materials used for ossicular chain reconstruction. (25)
2. Discuss the various surgical approaches to the Nasopharynx. (25)
3. (a) Acoustic reflex
(b) Intrinsic muscles of the larynx
(c) Hemifacial spasms
(d) Internal auditory meatus
(e) Oesophageal speech. (5 × 10 = 50)

OCTOBER 1999

[KA 219]

Sub. Code : 2076

M.S. DEGREE EXAMINATION.

(Revised Regulations)

Branch IV — E.N.T.

Part II

**Paper I — E.N.T. INCLUDING⁶AUDIOLOGY AND
NEUROLOGY**

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the aetiological factors, clinical features and management of lateral sinus thrombophlebitis. (25)
2. Describe the methods of treatment of a case of optic nerve compression due to trauma. (25)
3. Write brief answers on : (5 × 10 = 50)
 - (a) Speech audiometry
 - (b) Cochlear implant
 - (c) Open Rhinoplasty
 - (d) Nasal Myiasis
 - (e) Differential diagnosis of a mass in the nasopharynx of a child.

[KB 219] APRIL 2000

sub. Code : 2228

M.S. DEGREE EXAMINATION.

(Revised Regulations)

Branch IV — E.N.T.

Part II

Paper I — E.N.T. INCLUDING AUDIOLOGY AND
NEUROLOGY

Time : Three hours Maximum : 100 marks

Answer ALL questions.

1. Enumerate the various causes of sudden sensori-neural deafness. Outline the investigations and discuss the management including the role of surgery. (25)
2. Describe the classical indications and the procedure of modified radical mastoidectomy. Critically discuss the role of surgery in obviating the 'Cavity problems' encountered in patients who had undergone the above surgery. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Stellate ganglion block
 - (b) Hennebert's sign
 - (c) Total communication approach in Deaf-mutism
 - (d) Role of laser in Otology
 - (e) Theories of pneumatization of mastoid cellular system.

OCTOBER 2000

[KC 219]

Sub. Code

M.S. DEGREE EXAMINATION.

Branch IV — E.N.T.

(Revised Regulations)

Part II

Paper I — E.N.T. INCLUDING AUDIOLOGY,
NEUROLOGY

Time : Three hours. Maximum : 100

Answer ALL questions.

1. Describe the various causes and investigation case with lower motor neurone facial palsy. Critically evaluate the role of surgery in management.
2. Discuss the aetio-pathogenesis, clinical features and the complications in a case with lateral thrombosis. Outline the surgical management of above condition.
3. Write briefly on : (5 × 10)
 - (a) Perilymph fistula.
 - (b) Reverse glycerol test in Meniere's disease
 - (c) Oto-acoustic emissions.
 - (d) Persistent conductive deafness following stapedectomy
 - (e) Objective tinnitus.
