

AUGUST - 2005

[KN 827]

Sub. Code : 4887

B.Sc. (Nursing) DEGREE EXAMINATION.

(For Trained Nurses)

First Year — Non-Semester

Paper VI — CHILD HEALTH NURSING

Time : Three hours Maximum : 75 marks

Sec. A & B : Two hours and Sec. A & B : 60 marks
forty five minutes

Sec. C : Fifteen minutes Sec. C : 15 marks

Answer Sections A and B in the SAME answer book.

Answer Section C in the answer sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Master Saju is admitted with Leukemia in the childrens ward.

- (a) Define Leukemia (2)**
- (b) Classify Leukemia (3)**
- (c) Illustrate with pathophysiology with signs and symptoms of Acute Lymphocytic Leukemia (4)**
- (d) Write the Nursing care plan for 3 years old Saju. (6)**

2. Baby Kumari has been brought to paediatric emergency unit with burns in both extremities, neck and back.

- (a) List down causes of burns in children (2)**
- (b) Write on depth of injury in burns (3)**
- (c) Write the emergency treatment for burns (2)**
- (d) How will you replace fluid for this child (2)**
- (e) Draw a nursing care plan for Baby Kumari. (6)**

SECTION B

3. Write short notes on any SIX of the following : (6 × 5 = 30)

- (a) Breast feeding**
- (b) Reflexes of the new born**
- (c) Marasmus**
- (d) Rheumatic fever**
- (e) Diabetes insipidus**
- (f) Intrusasception**
- (g) Pyloric stenosis.**

Time : Three hours

Maximum : 75 marks

Sec. A & B : Two hours and
forty five minutes

Sec. A & B : 60 marks

Sec. C : Fifteen minutes

Sec. C : 15 marks

Answer Sections A and B in the **SAME** answer book.

Answer Section C in the answer sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. (a) Discuss the principles of growth and development. (8)
- (b) Enumerate the factors affecting growth and development. (7)

2. 1 year old Dinesh has been admitted with a diagnosis of Protein Energy Malnutrition.

- (a) List the causes of P.E.M. (3)
- (b) List the signs and symptoms of PEM. (3)
- (c) Plan for the nursing care that you would give to Dinesh in detail using the nursing process. (9)

SECTION B — (6 × 5 = 30 marks)

3. Write short notes on any SIX of the following :

- (a) Apgar score.
- (b) Immunization schedule.
- (c) Tetralogy of Fallot.
- (d) Care of a newborn in an incubator.
- (e) Prevention of accidents in children.
- (f) National programmes related to child health and welfare
- (g) Play for the hospitalized child.

First Year — Non-Semester

Paper VI — CHILD HEALTH NURSING

Time : Three hours Maximum : 75 marks

Descriptive : Two hours and Descriptive : 60 marks
forty five minutes

Objective : Fifteen minutes Objective : 15 marks

Answer ALL questions.

Write an essays on :

1. Master Kiran, 4 years old, is admitted for the surgical repair of tetralogy of fallot.

(a) Classify acynotic and cyanotic cardiac anamolies. (3)

(b) Draw a diagram showing the four defects of TOF. (4)

(c) Explain the pathophysiology of TOF. (5)

(d) Write the pre and post operative nursing management of Master Kiran. (8)

2. (a) What are the clinical manifestations of Nephrotic syndrome? (2)

(b) Explain the pathophysiology of nephrotic syndrome. (4)

(c) Write the medical management of nephrotic syndrome. (3)

(d) List the Nursing management of a child of 4 years with nephrotic syndrome. (6)

3. Write short notes on any FIVE the following :
(5 × 5 = 25)

(a) Immediate care of the New Born.

(b) Characteristics of Mental Retardation.

(c) Bronchial Asthma.

(d) Hydro Cephalus.

(e) Causes and treatment of a child with Bronchopneumonia.

(f) Signs and symptoms of dehydration.

First Year — Non-Semester

Paper VI — CHILD HEALTH NURSING

Time : Three hours Maximum : 75 marks

Descriptive : Two hours and Descriptive : 60 marks
forty five minutes

Objective : Fifteen minutes Objective : 15 marks

Answer ALL questions.

1. A 2 years old boy, Kannan has been admitted with the diagnosis of Acute Gastroenteritis with 10% dehydration.

(a) List the signs and symptoms of dehydration. (6)

(b) Enumerate the fluid replacement therapy for Kannan. (5)

(c) Write in detail the nursing care that you would give to Kannan using the nursing process. (9)

2. Five year old Geetha has sustained 30% burns due to hot water

(a) List the causes of burns in children. (3)

(b) Describe the treatment of burns in Children. (4)

(c) Discuss the nursing care of Geetha using the nursing process. (8)

3. Write short notes on any FIVE of the following.
(5 × 5 = 25)

(a) Apgar score.

(b) Cardiopulmonary resuscitation in Children.

(c) Play for the hospitalized child.

(d) Nursing care of a child with Acute Glomerulo
nephritis.

(e) Care of a newborn in an incubator.

(f) Impetigo.

First Year — Non-Semester

Paper VI — CHILD HEALTH NURSING

Time : Three hours Maximum : 75 marks

**Descriptive : Two hours and Descriptive : 60 marks
forty five minutes**

Objective : Fifteen minutes Objective : 15 marks

Answer ALL questions.

Long Essay :

1. (a) Define Bronchopneumonia.
(b) Explain its clinical manifestations and pathophysiology. (15)
2. Kala a five year old child is admitted with a history of convulsions, vomiting and diagnosed as a case of pyogenic meningitis.
 - (a) Write down the causes of pyogenic meningitis. (2)
 - (b) List out the manifestations and complications of pyogenic meningitis. (3)
 - (c) Discuss the nursing care plan in detail using nursing process. (10)

3. Write short notes of the following : (6 × 5 = 30)
 - (a) Breast feeding
 - (b) Otitis media
 - (c) Problems of adolescent
 - (d) Vit. A deficiency
 - (e) Neonatal reflexes
 - (f) Immunization schedule.

Paper VI — CHILD HEALTH NURSING

Q.P. Code : 684887

Time : Three hours

Maximum : 75 marks

Answer ALL questions.

I. Essays : (2 × 15 = 30)

1. Roja, a Six year old child is admitted in the Paediatric ward with the Complaints of marked odema, Proteinuria and oliguria and she is diagnosed as having Nephrotic Syndrome.

(a) Define Nephrotic Syndrome. (2)

(b) List out the Causes, and explain the pathophysiology and its clinical manifestations. (7)

(c) Discuss the Medical and Nursing Management for Roja. (6)

August-2008

2. (a) Define Protein-Energy Malnutrition. (2)
- (b) Enlist the types of Protein-Energy Malnutrition and discuss the difference between it. (5)
- (c) Describe the Medical and Nursing Management including Preventive aspects of Protein-Energy Malnutrition. (8)

II. Write Short notes on : (5 × 5 = 25)

1. Poliomyelitis.
2. Care of Newborn in the Incubator.
3. Factors influencing Growth and Development.
4. Impetigo.
5. Epistaxis.

III. Short Answers Questions : (10 × 2 = 20)

1. Mention the two principle of Growth and Development.
2. Write down the two benefits of Kangaroo Care.

3. List down the two important signs and two symptoms of pyloric stenosis.

4. Two parental advice for adolescent parent.

5. List down the two Psycho-Social problem of toddler.

6. Write two signs and two symptoms of Selvi. Sarala 10 years diagnosed as spina bifida?

7. Mention two important nursing management of Sickle-Cell anemia?

8. Enumerate two signs and two symptoms of marasmus.

9. Write down the Clark's formula.

10. List down two behavioral problems of school children?

DEGREE EXAMINATION**

**First Year – Non – Semester
Paper VI – CHILD HEALTH NURSING
Q.P. Code : 684887**

Time : Three hours

Maximum : 75 marks

Answer All questions.

I. Essays:

(2X15=30)

1. A 9 months old infant is admitted to the pediatric ward with the symptoms of 'Cyanotic Spells' and was diagnosed as 'Tetralogy of Fallots'.
 - a) Define 'Cyanotic Spell'.
 - b) Explain the pathophysiology and the clinical manifestations of 'Tetralogy of Fallots'.
 - c) Write about the medical and surgical management for 'Tetralogy of Fallots'.
 - d) Write in detail the pre and post operative nursing management of child with 'Tetralogy of Fallots'.
2.
 - a) Define the term 'Diarrhoea'.
 - b) What are the risk factors of diarrhoea in children?
 - c) Write about the degrees of dehydration and the fluid management.
 - d) Discuss the nursing management of this case.

II. Write Short Notes on :

(5X 5 = 25)

1. New born resuscitation.
2. Battered child syndrome.
3. Behavioural problems of an adolescent.
4. Retinopathy of Prematurity.
5. Nursing care of a child with Diabetic ketoacidosis.

III. Short Answer Questions:

(10X 2 = 20)

1. Write four differences between physiological and pathological jaundice.
2. List out four newborn reflexes in relation to feeding.
3. Enlist eight rights of children.
4. Write down four characteristics of vomiting in Hyperpyloric stenosis.
5. List out four complications of Digoxin toxicity.
6. Define Infant mortality rate and the current IMR of India and Tamilnadu.
7. What is meant by 'Zollinger Ellision Syndrome'?
8. Define 'Complementary and Supplementary feeding'.
9. Write the fluid maintenance requirements for children based on the body weight.
10. What is meant by 'Physiologic anaemia'?

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a) Define imperforate anus.
b) Classify the types of anorectal anomalies.
c) Write the clinical features and management of anorectal anomalies.
2. Master Ashok, 3 yrs old child is admitted in paediatric ward with 15% burns.
a) Define burns.
b) Classify the degrees of burns.
c) Explain the pathophysiology and fluid replacement therapy for burns.

II. Write notes on:

(5 x 5 = 25)

1. Growth and development of infant.
2. Rickets.
3. Nephrotic syndrome.
4. Poliomyelitis.
5. Phototherapy.

III. Short answers on:

(10 x 2 = 20)

1. Mention four national programmes related to child health and welfare.
2. List down the four values of play.
3. Write the indications of cardio pulmonary resuscitation.
4. Define diaphragmatic hernia.
5. Explain Jones criteria.
6. Define hemolytic uremic syndrome.
7. Mention the defects of neural tube closure.
8. Classify fracture.
9. Define megacolon and name the surgery for megacolon.
10. Define erythroblastosis foetalis.

**POST BASIC BACHELOR OF SCIENCE IN NURSING
DEGREE EXAMINATION
FIRST YEAR – NON SEMESTER
PAPER VI – CHILD HEALTH NURSING**

Q.P. Code: 684887

Time: Three hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a) Define Protein Energy Malnutrition (PEM).
b) Enumerate the causes of PEM.
c) Explain the difference between Marasmus and Kwashiorkor.
d) Write the dietary and nursing management for a child with PEM.
2. a) Define growth and development.
b) Explain the psychosocial theories of development.
c) Discuss the physical, social, emotional, intellectual development of toddler.

II. Write notes on:

(5 x 5 = 25)

1. Exchange transfusion.
2. Pyloric stenosis.
3. Tetralogy of fallot.
4. Leukemia.
5. Otitis Media.

III. Short answers on:

(10 x 2 = 20)

1. Difference between Meningocele and Meningomyelocele.
2. Name the causative organism for four communicable diseases.
3. Define sibling rivalry.
4. Enlist four complications of fracture.
5. Classify the types of Cerebral Palsy.
6. Enumerate four behavioural problems of children.
7. Mention four causes of renal failure.
8. Define Infant Mortality Rate.
9. Two complications of artificial feeding.
10. Rule of ten in cleft lip.

**POST BASIC BACHELOR OF SCIENCE IN NURSING
DEGREE EXAMINATION
FIRST YEAR – NON SEMESTER
PAPER VI – CHILD HEALTH NURSING**

Q.P. Code: 684887

Time: Three hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a) Define meningitis.
b) Discuss the pathophysiology, signs and symptoms of meningitis.
c) Explain the medical and nursing management of meningitis.
2. a) Define tracheo-esophageal fistula.
b) Explain the types, medical and surgical management of child with tracheo-esophageal fistula.
c) Discuss the nursing process for a child with tracheo-esophageal fistula.

II. Write notes on:

(5 x 5 = 25)

1. Immunization schedule.
2. Iron deficiency anaemia.
3. Exchange blood transfusion.
4. Infective endocarditis.
5. HIV Infection in children.

III. Short answers on:

(10 x 2 = 20)

1. Enumerate any four behavioural problems of toddler.
2. Define epispadias.
3. Mention any four causes of intestinal obstruction.
4. Write any four types of restraints.
5. Mention any four roles of a paediatric nurse.
6. Define tetralogy of fallot.
7. List any four complications of otitis media.
8. Write any four factors influencing growth and development.
9. List four causes of renal failure.
10. List any four newborn reflexes.

**POST BASIC BACHELOR OF SCIENCE IN NURSING
DEGREE EXAMINATION**

FIRST YEAR – NON SEMESTER

PAPER VI – CHILD HEALTH NURSING

Q.P. Code: 684887

Time: Three Hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. Master Bala, a 10 year old child is admitted in the paediatric medical ward with the diagnosis of rheumatic fever.
 - a) Define rheumatic fever.
 - b) Explain the pathophysiology and clinical manifestations of rheumatic fever.
 - c) Describe the medical and nursing management of Master Bala.

2. Baby Jeni, 6 months old is admitted in the paediatric surgical ward with the diagnosis of Cleft lip.
 - a) Define cleft lip.
 - b) List out the causes and clinical features of cleft lip.
 - c) Explain pre and post-operative management of this child.

II. Write notes on:

(5 x 5 = 25)

1. Neonatal Resuscitation.
2. Temper tantrum.
3. Immunization schedule.
4. Scabies.
5. Undescended testes.

III. Short answers on:

(10 x 2 = 20)

1. What is primary complex?
2. Differentiate meningocele and meningomyelocele.
3. What is club foot?
4. What is parallel play?
5. Mention two reactions of maternal deprivation.
6. What is rooming-in practice?
7. What is brown fat?
8. Differentiate between adult and child.
9. Formula for drug dosage calculation.
10. List the causes of diarrhoea in children.

**POST BASIC BACHELOR OF SCIENCE IN NURSING

FIRST YEAR – NON SEMESTER

PAPER VI – CHILD HEALTH NURSING

Q.P. Code: 684887

Time: Three Hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a) Define Bronchial Asthma.
b) Explain the causes, pathophysiology and clinical manifestations of Bronchial Asthma.
c) Discuss the medical and nursing management of Bronchial Asthma.
2. a) Define high risk new born.
b) Explain the classification and assessment of high risk new born.
c) Draw a nursing care plan for a pre-term baby.

II. Write notes on:

(5 x 5 = 25)

1. Care of new born in incubator.
2. Pertussis.
3. Therapeutic Play.
4. Cryptorchidism.
5. Cleft lip and cleft palate.

III. Short answers on:

(10 x 2 = 20)

1. Define child guidance clinic.
2. Mention any four functions of cold chain.
3. Define Neonatal Mortality Rate.
4. Write any two confirmatory test for congenital hip dislocation.
5. Write any four rights of children.
6. Classify the congenital heart diseases.
7. Define APGAR score.
8. Mention four cardinal symptoms of hydro-cephalus.
9. Write four differences between physiological and pathological jaundice.
10. List out the six killer vaccine preventable diseases.

**POST BASIC BACHELOR OF SCIENCE IN NURSING
DEGREE EXAMINATION**

FIRST YEAR – NON SEMESTER

PAPER VI – CHILD HEALTH NURSING

Q.P. Code: 684887

Time: Three Hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a) Define protein energy malnutrition.
b) What are the differences between Kwashiorkor and Marasmus?
c) Write in detail about the preventive measures of Protein energy malnutrition.
2. a) Define Growth and Development.
b) What are the principles of Growth and development?
c) Explain in detail about growth and development of a Toddler.

II. Write notes on:

(5 x 5 = 25)

1. Child welfare programmes in India.
2. Breast feeding.
3. Restraints in children.
4. Dehydration assessment in Infants.
5. Common childhood accidents and its prevention.

III. Short answers on:

(10 x 2 = 20)

1. List four congenital anomalies of nervous system.
2. Define Preventive Paediatrics.
3. Mention four cardinal signs of respiration failure.
4. Expansion of DDST.
5. List four cyanotic heart diseases.
6. List four clinical manifestations of Iron deficiency anemia.
7. Diagnostic method for hip displacement.
8. Types of pneumonia.
9. Define Hirsprungs disease.
10. List four trends in paediatric nursing.

**POST BASIC BACHELOR OF SCIENCE IN NURSING

FIRST YEAR – NON SEMESTER

PAPER VI – CHILD HEALTH NURSING

Q.P. Code: 684887

Time: Three Hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. Master. Arun, a 4 year old is admitted in pediatric neuro-medical ward and is diagnosed as having hydro-cephalus.
 - a) Define hydro-cephalus and enumerate its clinical manifestations.
 - b) Explain the medical and surgical management of hydro-cephalus.
 - c) Draw a comprehensive nursing care plan for this child.

2.
 - a) Define acute glomerulo-nephritis.
 - b) Explain the pathophysiology and clinical manifestations of acute glomerulo-nephritis.
 - c) Draw a nursing care plan for a child with acute glomerulo-nephritis.

II. Write notes on:

(5 x 5 = 25)

1. Osteomyelitis.
2. Road to good health.
3. Hemophilia.
4. Small for date.
5. Helminthic infestations.

III. Short answers on:

(10 x 2 = 20)

1. Mention four clinical manifestation of respiratory distress syndrome.
2. List out four complications of cirrhosis of liver.
3. What is Meckel's diverticulum?
4. What is broncho-pneumonia?
5. Mention four vitamin deficiency disorders in children.
6. Mention four congenital anomalies of gastro-intestinal tract in children.
7. Two immediate management of kerosene poisoning.
8. What is the difference between cyanotic and acyanotic heart disease?
9. What is therapeutic play?
10. Define juvenile diabetes.

Q.P. Code: 684887

Time: Three Hours

Maximum: 75 Marks

I. Elaborate on:

(2 x 15 = 30)

1. a. Define intestinal obstruction.
b. What are the diagnostic measures and clinical manifestations of intestinal obstruction.
c. Explain in detail about medical and surgical management of child with intestinal obstruction.
2. a. Define congenital heart diseases.
b. Classify congenital heart disease.
c. Explain in detail about tetralogy of Fallot.

II. Write notes on:

(5 x 5 = 25)

1. Assessment of newborn.
2. Principles of growth and development.
3. Role of a paediatric nurse in caring for a hospitalized child.
4. Infant Mortality rate.
5. Hip displacement in newborn.

III. Short answers on:

(10 x 2 = 20)

1. Clinical manifestations of rickets.
2. Vaccine for measles.
3. Define Down syndrome.
4. Difference between cephal haematoma and caput succedaneum.
5. List four laws related to child welfare.
6. List four clinical manifestations of dehydration.
7. Define high risk newborn.
8. Preventive measures for worm infestation.
9. List clinical manifestations of marasmus.
10. List four congenital anomalies of respiratory system.
