

**BACHELOR IN AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY**

**FIRST YEAR – SEMESTER - II**

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code: 802342*

**Time: Three Hours**

**Maximum : 75 Marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 10 = 20)**

1. Causes of hoarseness and their management.
2. Post surgical care and complications of cochlear implant surgery.

**II. Write notes on:**

**(8 x 5 = 40)**

1. Cerumen.
2. Waardenburg syndrome.
3. Diffuse otitis externa.
4. Auditory dyssynchrony.
5. Define chronic suppurative otitis media and classify different types of perforation.
6. Theories of cholesteatoma.
7. Classify temporal bone fracture and its management.
8. Evaluation of otosclerosis and its management.

**III. Short answers on:**

**(5 x 3 = 15)**

1. Pre malignant lesions of the oral cavity.
2. Laryngomalacia.
3. Vocal nodule causes.
4. Chronic tonsillitis and its management.
5. Ototoxic drugs.

**BACHELOR IN AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY**

**FIRST YEAR – SEMESTER - II**

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code: 802342*

**Time: Three Hours**

**Maximum : 75 Marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 10 = 20)**

1. Discuss in brief the procedure of total laryngectomy and add a note on post operative rehabilitation of speech and swallowing.
2. Clinical anatomy and physiology of larynx.

**II. Write notes on:**

**(8 x 5 = 40)**

1. Tinnitus retraining therapy.
2. Eustachian tube function tests.
3. Bell's palsy.
4. Tracheoesophageal fistula.
5. Physiology of deglutition.
6. Vestibular schwannoma.
7. Reinke's edema.
8. Cochlear otosclerosis.

**III. Short answers on:**

**(5 x 3 = 15)**

1. Constrictions of esophagus and its clinical significance.
2. Indications of auditory brainstem implant.
3. Tracheostomy care.
4. Pre auricular sinus.
5. Oral submucous fibrosis.

**FIRST YEAR – SEMESTER - II**

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code: 802342*

**Time: Three Hours**

**Maximum : 75 Marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 10 = 20)**

1. Meniere's disease symptomatology and management.
2. Methods of examination of the larynx and instruments used.

**II. Write notes on:**

**(8 x 5 = 40)**

1. Thyroplasty types, indications and steps.
2. Indications for tracheostomy and tracheostomy post operative care.
3. Puberphonia management.
4. Elaborate on vestibular function tests (Romberg, Tandem Walking and Unterberger)
5. Clinical examination of the facial nerve.
6. Audiological tests for vestibular schwannoma.
7. Describe the clinical features of laryngomalacia.
8. Voice restoration after laryngectomy.

**III. Short answers on:**

**(5 x 3 = 15)**

1. Interpret fistula test.
2. Enumerate the causes of stridor.
3. Gradenigo's syndrome.
4. Types of Tympanogram.
5. Mention five causes for sensorineural hearing loss.

**BACHELOR IN AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY**

**FIRST YEAR – SEMESTER - II**

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code: 802342*

**Time: Three Hours**

**Maximum : 75 Marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 10 = 20)**

1. Describe in detail the clinical anatomy of middle ear and mastoid.
2. Clinical anatomy of pharynx and physiology of phonation.

**II. Write notes on:**

**(8 x 5 = 40)**

1. Cleft palate management.
2. Stroboscopy principles, techniques and interpretation.
3. Unilateral vocal fold paralysis causes and management.
4. Glue ear management.
5. Achalasia cardia.
6. Indications for bone anchored hearing aid.
7. Differences between infant and adult larynx.
8. Thyroplasty types and indications.

**III. Short answers on:**

**(5 x 3 = 15)**

1. Presbycusis.
2. Tracheoesophageal speech prostheses.
3. Microtia.
4. Laryngopharyngeal reflux.
5. Voice hygiene.

**BACHELOR IN AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY**

**SEMESTER - II (Regulation 2017-2018)**

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code : 802342*

**Time: Three hours**

**Answer ALL Questions**

**Maximum: 75 Marks**

**I. Elaborate on:**

**(2 x 10 = 20)**

1. Physiology of hearing and vestibular function.
2. Congenital hearing loss and delayed speech development.

**II. Write notes on:**

**(8 x 5 = 40)**

1. List the indications, contraindications and complications of Stapedectomy.
2. Functional evaluation of swallowing disorders.
3. Management of Presbycusis.
4. Elaborate on Tuning Fork test (Rinne, weber and ABC).
5. Enumerate on ototoxic drugs.
6. Muscles of middle ear, nerves supply and action.
7. Management of cleft lip and palate.
8. Management of Tinnitus.

**III. Short answers on:**

**(5 x 3 = 15)**

1. Types of Temporal bone fractures.
2. Ramsay hunt syndrome features.
3. Features of tuberculous laryngitis.
4. Features of laryngopharyngeal reflux.
5. Causes of left vocal cord paralysis.

**SEMESTER - II (Regulation 2017-2018)**

**PAPER II – OTOLARYNGOLOGY**

*Q.P NO. 802342*

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on : (2X10=20)**

1. Discuss the clinical anatomy and physiology of the pharynx.
2. Disorders of the vocal folds and hoarseness of voice

**II. Write Notes on : (8X5=40)**

1. Rehabilitation of a laryngectomy patient.
2. Test for eustachian tube function.
3. Common causes of hoarseness.
4. Presbycusis.
5. Vestibular pathway.
6. Physiology of Hearing.
7. Management of Cleft lip and Palate.
8. Benign and Malignant Tumours of Oesophagus.

**III. Short Answers on : (5X3=15)**

1. Usher syndrome.
2. Velopharyngeal dysfunction.
3. Esophageal fistula.
4. Enumerate Intrinsic Muscles of Larynx.
5. Middle Ear Ossicles.

PAPER II – OTOLARYNGOLOGY  
Q.P. Code: 802342**

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :** (2X10=20)

1. Describe the clinical anatomy and common disorders of Oral Cavity.
2. Discuss the Facial Nerve course and disorders.

**II. Write Notes on :** (8X5=40)

1. Management of Tinnitus.
2. Management of Vocal Nodule.
3. Post-surgical care after cochlear implant surgery.
4. Congenital anomalies of inner ear.
5. Physiology of swallowing.
6. Management of otitis media with effusion.
7. Laryngectomy.
8. Symptoms, signs and management of adenoid hypertrophy.

**III. Short Answers on :** (5X3=15)

1. Bone Anchored Hearing Aid (BAHA).
2. Laryngocele.
3. Causes of left vocal cord paralysis.
4. Causes of traumatic perforation of tympanic membrane.
5. Puberphonia.

PAPER II – OTOLARYNGOLOGY  
*Q.P. Code: 802342***

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :** **(2 X 10 = 20)**

1. Congenital Anomalies of External, Middle and Inner Ear.
2. Clinical Anatomy and Physiology of Larynx

**II. Write Notes on :** **(8 X 5 = 40)**

1. Causes and management of Laryngopharyngeal reflux.
2. Clinical examination of Larynx.
3. Anatomy and functions of External Auditory Canal.
4. Vestibular Schwannoma.
5. Benign and Malignant condition of Esophagus.
6. Management of Traumatic perforation of Tympanic membrane.
7. Disorders of Facial nerve.
8. Describe the clinical features and investigations in a patient with Meniere's disease.

**III. Short Answers on :** **(5 X 3 = 15)**

1. Tests for vestibular function.
2. Indications for Mastoidectomy.
3. Prevention of Noise induced hearing loss.
4. Keratosis obturans.
5. Pre operative assessment of Laryngectomy patient.

**PAPER II – OTOLARYNGOLOGY**

*Q.P. Code: 802342*

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :**

**(2 X 10 = 20)**

1. Describe the aetiology, clinical features and management of conductive hearing loss.
2. Describe the various methods of examination of Larynx.

**II. Write Notes on :**

**(8 X 5 = 40)**

1. Eustachian tube dysfunction.
2. Rhinolalia aperta and clausa.
3. Disorders of Vestibular system.
4. Congenital anomalies of inner ear.
5. Vocal emergency and Vocal hygiene.
6. Clinical anatomy of Oesophagus.
7. Disease of the External ear.
8. Enumerate the complications of Mastoidectomy.

**III. Short Answers on :**

**(5 X 3 = 15)**

1. Syndromes associated with congenital sensorineural hearing loss.
2. Phonosurgery.
3. Paediatric causes of stridor.
4. Myringotomy - types and uses.
5. Auditory pathway.

**PAPER II – OTOLARYNGOLOGY**

***Q.P. Code: 802342***

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :**

**(2 X 10 = 20)**

1. Describe the aetiopathogenesis, clinical features, investigations and management of Chronic suppurative otitis media and Cholesteatoma.
2. Describe the common disorders of Oral cavity, clinical features, investigations and management.

**II. Write Notes on :**

**(8 X 5 = 40)**

1. Ototoxicity.
2. Difference between adult and infant larynx.
3. Airway management procedures.
4. Congenital anomalies of Esophagus.
5. Stroboscopy.
6. Explain Tinnitogram and Tinnitus retraining therapy.
7. What are the functions of Larynx?
8. What are the types of tympanogram and list the conditions causing them.

**III. Short Answers on :**

**(5 X 3 = 15)**

1. Causes of facial palsy.
2. Causes of sensorineural hearing loss.
3. Predisposing factors of vocal nodule.
4. Causes of peripheral vertigo.
5. Describe Rinne, Weber and ABC Tuning Fork Tests.

***Q.P. Code: 802342***

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :**

**(2 x 10 = 20)**

1. Describe in detail about Middle ear and Ossicular chain.
2. Clinical Anatomy of Larynx with diagram.

**II. Write Notes on :**

**(8 x 5 = 40)**

1. Laryngectomy.
2. Presbycusis.
3. Eustachian tube dysfunction.
4. Cleft lip and Palate.
5. Common disorders of the oral cavity.
6. Anatomy of tongue.
7. Ototoxicity.
8. Congenital anomalies of Oesophagus.

**III. Short Answers on :**

**(5 x 3 = 15)**

1. Enumerate the diseases of tympanic membrane.
2. Chronic suppurative otitis media.
3. Tumours of Pharynx.
4. External Ear anomalies.
5. Facial nerve and its functions.

**PAPER II – OTOLARYNGOLOGY**

***Q.P. Code: 802342***

**Time: Three Hours**

**Answer All questions**

**Maximum: 75 Marks**

**I. Elaborate on :**

**(2 x 10 = 20)**

1. Describe the aetiopathogenesis, clinical features, investigations and management of Otosclerosis.
2. Describe the aetiopathogenesis, clinical features, investigations and management of Serous Otitis Media.

**II. Write Notes on :**

**(8 x 5 = 40)**

1. List four common causes of Dysphagia and outline the management of Achalasia cardia.
2. Describe the clinical features, investigations and management of hoarseness of voice.
3. Draw the diagram of Tympanic Membrane and mark its parts.
4. Tabulate the differences in the clinical presentations of Tubotympanic and Atticoantral disease.
5. Enumerate the causes of Facial Nerve palsy.
6. Discuss the clinical features and management of carcinoma of vocal cord.
7. Discuss the clinical features of Laryngomalacia.
8. With suitable diagram, list the structures forming tonsillar fossa.

**III. Short Answers on :**

**(5 x 3 = 15)**

1. List four premalignant conditions of the oral cavity.
2. Main symptom and quality of the voice in bilateral vocal cord paralysis.
3. Mention five causes for sensorineural hearing loss.
4. What is vocal nodule? Name the predisposing factors.
5. Enumerate four differences between peripheral and central vertigo.
