The Vice-Chancellor commenced the visit with a comprehensive tour around the campus including the mess, hostel, lecture halls, laboratories, library, auditorium, exam hall, and informic center.

**NUTRITION LAB**

Demonstrating an interactive approach to learning, he invited one student to draw the human digestive system on the board. After the initial attempt, another student was asked to identify and rectify any inaccuracies in the diagram. Finally, a faculty member was asked to verify and elaborate on the corrections and he appreciated all of them.

**B.Sc(N) II YEAR CLASS ROOM**

The Vice Chancellor inspected the process of conducting the simulation procedures using the advanced manikin. He explored the various procedures that can be done using the high fidelity manikins that was precisely explained by the faculty. His engagement with the pediatric staff to demonstrate newborn CPR and NG insertion procedures revealed a desire to ensure optimal resource allocation and the rigorous application of theoretical knowledge to practical scenarios and the faculty were appreciated for the same.

**ADVANCED SKILL LAB**

**OBG LAB**

**CHILD HEALTH NURSING LAB**

**CHILD HEALTH NURSING LAB**

The library visit was marked by a focus on the acquisition of contemporary academic resources. The Vice Chancellor's attention was particularly drawn to a student engrossed in a high-target preparatory text, prompting an insightful discussion on the importance of early career preparation. This observation sparked a proposal to initiate comprehensive training programs for competitive examinations and professional placements from the first year of study. This initiative reflects a proactive approach to student success, aiming to equip students with the necessary skills and knowledge to excel in their chosen fields.

**LIBRARY**

**LIBRARY**

The Vice Chancellor also visited the auditorium in the second floor followed by the examination hall and gave a suggestion for placing a bigger wall clock and moving the sequel room adjacent to the exam hall itself to enhance smoother logistical operations during university examinations.

**AUDITORIUM**

**EXAMINATION HALL**

**EXAMINATION HALL**

The Vice-chancellor has interacted formally with the faculty at the informic center and discussed the academic advancements, research and its endeavors, and challenges faced in research. The Principal expounded the activities of the college through a PowerPoint presentation. Interdisciplinary research, collaborative partnerships with other departments and institutions, and expansion of student exchange programs with international institutions were highlighted by the Vice Chancellor as crucial strategies for improving research output.,

After interaction with the Pirncipal, and faculties, a group photo was taken with the Vice-Chancellor and the team.
